

MONTHLY PIPELINE

Created for our customers.....our TOP priority.!

Greensboro
PIPE
Company

PIPE • VALVES • FITTINGS

Meet Rob Livingston!

We are fortunate to have Rob Livingston as the President of Greensboro Pipe Company.

Rob is a Clemson graduate who brings over 25 years of sales and management experience with him. In his

experience, Rob has worked in various sectors that cater to the industrial markets

(electrical, scales, motor sales and repair). Rob has worked

hard at redefining and restructuring Greensboro Pipe Company so that we can provide more products and services to our customers.

Please don't hesitate to call or email Rob with any questions or comments!

Season's Greetings!

The holiday season is upon us already! All of us at Greensboro Pipe Company want to send our heartfelt thanks for your continued patronage. Your business means everything to us and your satisfaction is our top priority.

This year has brought many positive changes to Greensboro Pipe Company. We have added new

employees, brought in new product lines and we have made some changes so that we can better serve you.

We are always here to help you with any of your pipe, valve and fitting needs. You can reach us via phone, fax or email. If there is anything we can do to help you or your company, please don't hesitate to let us know.

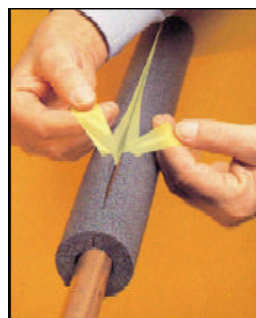

As 2004 approaches,

Greensboro Pipe Company looks forward to more growth as we begin building a new site that will be convenient to Greensboro, Winston-Salem and High Point. We will keep you updated!! Have a wonderful and safe holiday season!

Featured Item.....

As the freezing temperatures roll in, we need to think about protecting our pipes from damage from the cold. Whether in your home or at your place of business, protecting your water line pipes can prevent a costly and inconvenient job later on. Plumbers depend on pipe insulation to protect their customers' pipes and Greensboro Pipe carries insulation in

The convenience of peel and stick makes installation a snap!

many sizes and wall thickness for most any job. Our most popular insulation is the split foam insulation with the convenient peel and stick

application. We have many sizes to fit most standard pipe. If we don't have your size, we can order what you need and have it in stock in just a few days. We also carry fiberglass insulation with a paper covering for your high temperature applications.

Winterize your Water Heater

As you start 'winterizing' your home this year, don't forget to insulate the pipes for the first three feet at the water heater. WHY? Because the greatest loss of heat from the pipes is close to the water heater. This is where the temperature is being

maintained at the water heaters 'set point'. The higher the set point is on your heater, the more heat loss you have through uninsulated pipes. An investment of a few dollars in insulation can save you more money in energy savings.

You're water heater is heating water 24 hours a day for 365 days a year. Even slight increases in efficiency from pipe insulation are an important improvement. Come by and pick up some pipe insulation today!

Sweet Treats for You

We'll have homemade holiday cookies and spiced cider for our customers as our way to say "Happy Holidays"! Look for them when you come by the store on December 22 and 23. HAPPY HOLIDAYS!!!

Did You Know????

*Cold weather is coming!!!
Protect your home and business with products from Greensboro Pipe Company*

Greensboro Pipe Company has several stock items to help you get ready for the winter. In addition to foam and fiberglass pipe insulation, we stock these items too:

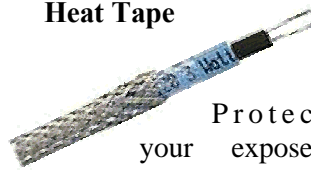

Decorative Insulated Rock Covers:

Protect your outside valves, meter or wells with an insulated rock cover. These attractive covers will blend with most any landscape. We have many sizes and colors in stock.

Heat Tape

Protect your exposed water pipes with heat tape from Frostex or EZ Heat. We stock both brands for your metal or plastic pipe.

Freeze-less and Frost Proof Sillcocks

Greensboro Pipe Company carries both Woodford and Sioux Chief brand freeze-less, frost proof sillcocks. You'll find a longer stem to protect knuckles

from being scraped, and it has a thicker handle for easier turning. We carry sillcocks with PEX and MPT connections.

Hot and Cold Water... outside!

Have the convenience of hot water outside with the Woodford model 22.
