

*Created for our customers.....our TOP priority.!*

### Ordinary....or Extraordinary???

When it comes to service, do you want ordinary service.....or EXTRAORDINARY service??? A successful company sets itself apart from the competition by being extraordinary, whether that means offering the best service, knowledge, pricing or a combination of all.

satisfaction as standard. Should you settle for 99%?. If we settle for the 99% standard, we would be without telephone service for 15 minutes each day. The Postal Service would lose 1.7 million pieces of first-class mail DAILY, you'd see 3 misspelled words on

each typed page. 99% standard means doctors and nurses would drop 35,000 newborn babies a year and 200,000 people would get the wrong drug prescriptions”

The 99% standard is like putting a puzzle together and missing the last piece. It's still an OK picture, but it's not complete. Greensboro Pipe Company strives for the whole puzzle.... extraordinary....and you deserve it!

### Featured Item.....

Greensboro Pipe Company stocks a wide variety of **Carbon Steel flanges and fittings**. Our Import flange stock currently houses a wide range of sizes and bores in the 300# and 600# weights. We also stock 150# pound flanges in standard and extra heavy bores.

If carbon steel fittings are what you need, we carry all sizes. We also have a collection of the larger sized fittings and reducers. If you have a

need for an unusual fitting that is hard to find...give us a call and see if we don't have one in stock for you.

Greensboro Pipe Company also stocks

carbon steel fittings in both **Import** and **Domestic**. Give us a call for your next carbon steel order or quote!

Keith Chapman

## *Did You Know????*

Greensboro Pipe Company has a history that extends over 40 years! W.F. Seagraves started Greensboro Pipe Company in 1957. The original company was located at the corner of Randleman Road and Vandalia where the Hardee's Restaurant is presently located. The company's primary business was selling imported well casing, Fairbanks pumps, and heating and air-conditioning parts.

The Chambers family purchased the business in April of 1970. The land for the present site at

3102 Randleman Road was purchased in the same year and the present building was completed in 1971. The Chambers operated the business for 30 years until it was sold in 2000 to the present owners.

Greensboro Pipe

Company services accounts in North Carolina South Carolina and Virginia selling to plumbing and grading contractors, well drillers, industrial facilities and the general public. Greensboro Pipe Company has expanded

their inventory to include pipe and fittings for **m e c h a n i c a l applications**. We also carry the **Delta** line of faucets, **Eljer** toilets, **Aquaglass** tubs and showers. We are now able to provide goods for all of your pipe and plumbing applications.

In the coming year, we will be relocating to a new facility that will allow us to better serve the Triad area. We strive for providing the best service and inventory to meet your needs. Come by and see us soon!
